

CORE COMPETENCIES

Integrated Geotechnical Solutions, Inc (IGS) was incorporated in New Jersey in 2005 with the goal of being a leading provider of monitoring systems, consultation and risk management solutions used in construction, aggregated, subway, civil engineering, historic preservation, remediation, mining, and oil and gas exploration industries. IGS offices across North America unite with our clients to supply timely and innovatively designed solutions with emphasis on quality and cost, delivering solutions consistently exceeding expectations.

Services include:

- Instrumentation sales and rental with installation and on-site and/or remote monitoring:
 - Vibration
 - Noise
 - Weather
 - Settlement
 - Geotechnical
 - Dust
 - Seismic
 - Automated Total Stations
- Pre & Post Condition Documentation
- Blast Design & Consultation
- Site Risk Assessments
- Public Relations & Expert Testimony
- Water Well Analysis

DIFFERENTIATORS

As a distributor, IGS partners with manufacturers of proven instrumentation and stocks common products. We have the resources and skills for immediate response.

Risk management and safety is a top priority. Field personnel have IGS Safety Training; OSHA 10, 30, 40 and 40 Hazwoper; MTA, LIRR, NYCTA, NJTransit, MetroNorth, PA Track Safety; TWIC, SWAC. Link to IGS available in ISNetwork, Ariba and SAP.
